WORK EXPERIENCE **Solution Developer – Deloitte, Deloitte Digital; Orlando, FL (USA)** Sep 2014 - Present

- Developed web applications for clients
- Worked as a full stack developer; front and back end development, and database integration
- Developed a UI, UX wireframe for an iOS application
- Learned problem-solving techniques, software methodologies, and great software design patterns

Mathematics Tutor - Seminole State College; Sanford, FL (USA) Jan 2012 - July 2014

- Tutored students in calculus, discrete mathematics, algebra, differential equations, trigonometry and statistics
- Excellent teaching skills
- Provided mentoring to new tutors and attended mandatory tutor training seminars

SKILLS **Languages: C, C++, Java, C#, Objective-C, HTML5/CSS3, JavaScript, PHP, SQL, AngularJS, jQuery**

Software, Frameworks, etc.: Git/Github, JIRA, Microsoft SQL Server, mySQL, Apache SVN(tortoise), Sketch3, Bootstrap, LAMP stack, Unix/Linux, Data Structures and Algorithms(Trees, Graphs, etc.) , Scrum(Agile), Unit Testing

SELECT PROJECT EXPERIENCE **Deloitte**

- Designed a website for a client where an administrator could enter the system and could keep all employees information(personal) in one application.
- The administrator could add, edit, delete all contacts as well as assign certain employees to certain divisions
- Worked with the client on a weekly basis; used scrum(agile) methodology throughout the project
